### Forest Service

#### Nicholson Land Exchange, Boise National Forest, Boise and Elmore Counties, ID

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare Environmental Impact Statement.

**SUMMARY:** The Boise National Forest will prepare an Environmental Impact Statement (EIS) to document the analysis and disclose the environmental impacts of a proposed land exchange with Thomas T. and Diana R. Nicholson.

In this exchange, the Boise National Forest would trade parcels totaling approximately 5,890 acres to the Nicholsons in exchange for parcels totaling approximately 573 acres. In order for the exchange to take place, the appraised values of the lands exchanged must be equal. Because of the different character, location, and potential uses of the different parcels, it is possible for

appraised values to be equal even when acreage figures are not. Any or all of the acres proposed for exchange may be exchanged provided the values are equal. In the event the values are not equal, either party may equalize the value by payment in cash, provided the cash equalization does not exceed 25 percent of the appraised value of the Federal lands to be conveyed in the exchange.

**DATES:** Written comments concerning the scope of the analysis described in this Notice should be received by November 14, 1997, to ensure timely consideration. No scoping meetings are planned at this time.

**ADDRESSES:** Send written comments to Sharon Paris, Project Coordinator, Boise National Forest, 1249 South Vinnell Way, Boise, ID 83709.

**FOR FURTHER INFORMATION CONTACT:** Questions concerning the proposed action and EIS should be directed to Sharon Paris at (208) 373-4157.

**SUPPLEMENTARY INFORMATION:** In September 1995, the Boise National Forest completed an Environmental Assessment (EA) titled "Nicholson #3 Land Exchange Project." This EA was distributed to the public as a predecisional EA.

Based on the information in the EA, the Boise National Forest concluded the proposal may have a significant effect on the roadless resource and decided to prepare an EIS. The proposal may result in the reduction of approximately 1,745 acres of the Mount Hienon Inventoried Roadless Area (IRA) from the National Forest System. The IRA is currently 12,390 acres. Proposals that may substantially alter the undeveloped character of an IRA require the preparation of an EIS.

The previous scoping and analysis identified that the proposed exchange would result in the reduction of approximately 1,745 acres of the Mount Heinen IRA from the National Forest System. Other potential issues may be identified during the current scoping period.

The Forest Service is seeking information and comments from Federal, State, and local agencies, as well as individuals and organizations who may be interested in, or affected by, the proposed action. The Forest Service invites written comments and suggestions on the issues related to the proposal and the area being analyzed.
